

## Recommendations:

- Make it political
- Exchange information
- Build a bridge between policy makers and academics

**Jonė Leščinskaitė**

**Chief specialist - river continuity restoration**

**Strategic Change Group**

**The Ministry of Environment of the Republic of Lithuania**

# Reflection of the survey

- Great format and management!
- Quantitative policy comparison
- Attention to aspects that are often forgotten or avoided - public awareness and NGO influence

# Amplifying the influence of NGO

- Lobbying and advocacy or education and training
- **Everyone has a role**
- Bottom-up pressure on politicians
- Bringing important topics to the table

# Choice of strategy/prioritization

- Contrasting strategies that work:

Spain – obsolete and relatively small barriers

France – barriers with high ecological impacts

- Large vs. small
- Obsolete vs. high environmental impact

---
