

THE TORDINO RIVER CONTRACT GEOBLOG

#lovetoTordino

By Mara Di Berardo

(Province of Teramo, Italy, m.diberardo@provincia.teramo.it)

THE ERCIP PROJECT

The **European River Corridor Improvement Plans (ERCIP)** Project about European river corridors is financed by the INTERREG IVC Program. The Province of Teramo, within the project, promotes the exchange and develop of experiences about Teramo river corridor improvement plans, aiming at integrating environmental regional agencies, local administrative authorities and water managing authorities in geographically sensible river corridors managing, safeguard and development processes.

The *lovetoTordino* Geoblog increases the decision-making participatory tools for stakeholders and citizens in general.

THE TORDINO FRAMEWORK AGREEMENT (FA) RIVER CORRIDOR IMPROVEMENT PLAN (RCIP) AND LOCAL ACTION PLAN N. 1 (LAP n. 1)

Disused productive areas along the Tordino river recovery through multi-sectoral urban projects, native river flora 25% increasing, hydraulic security interventions through naturalistic engineering techniques, polluting material abandoned along the water system removal, entrepreneurship ventures connected to the river landscape support. These are some of the 30 commitments the Municipalities crossed by the Tordino river subscribed on the 4th of April 2014: they are contained into the Tordino FA, composed by strategic (RCIP) and specific (LAP n. 1) objectives.

THE TORDINO RC PARTICIPATORY PROCESS

PHASE N.1	PHASE N.2	PHASE N.3	FINAL EVENT
Wednesday 16.12.2013	Wednesday 18.12.2013	Thursday 19.12.2013	Monday 23.12.2013

THE MESSAGE

The Tordino needs you!

Just a click away, a new tool for citizens and environment for reporting about the Tordino river state of health.

Report situations of decline caused by pollution, waste, dumps, vandalism, neglect, instability, squatting and anything else disfigures the natural and harmonious river flow at lovetoTordino.provincia.teramo.it, into the specific space for user' contribution.

Pictures, Videos, comments: your report will be published on the website and assumed by the administrative organs and the policy in charge, in order to solve these uncomfortable situations in a short time. But... even a contribution, an idea for river redevelopment and valorisation: everything can be useful to give a new facet and development to the Tordino.

Take part: become protagonist of our river protection in first person!
