

# Restoring Europe's Rivers

## RESTORE Network Event

Sharing Good Practice in River Restoration

14<sup>th</sup> September 2012

LIFE 09INF/UK/000032

The RESTORE project is made possible with the contribution of  
the LIFE+ financial instrument of the European Community

and works in partnership with

# Restoring Europe's Rivers

## 1.0 Event Details

Sharing Good Practice in River Restoration, this workshop was an event as part of a wider ECER conference. This enabled us to work and communicate with scientists involved in restoring rivers. Prior to the workshop we visited a couple of the few examples of river restoration in the Czech Republic. This would allow us to visit and find out information on these examples of Czech river restoration. Full abstracts and programme can be found at: [www.czech-in.org/ecer2012/doc/ecer2012-FIN.pdf](http://www.czech-in.org/ecer2012/doc/ecer2012-FIN.pdf)

### 1.1 Objective for RESTORE of the event:

- **Integrate 'rivers' into the concept of ecological restoration**
- **Launch our RiverWiki to this scientific network**
- **Promote networks around Europe**
- **Increase contacts database**
- **Find out people's involvement with river restoration**

### 1.2 Workshop Outline

We had 20 attendees to the workshop, from the UK, Hungary, USA, Belgium, Austria, Czech Republic, Germany and France.

**8:30 – 8:40 – Toni Scarr**– introduced RESTORE and the RiverWiki. She discussed what RESTORE is aiming to achieve. Who and what we are trying to influence through communication. Then discussed what we understand as river restoration and what we will look at as part of the workshop.

**8:40 – 9:00 – Martin Janes** – Developed the discussion of river restoration and introduced examples linking science and practice.

**9:00 – 9:30** – we discussed a number of questions this was facilitated by Martin Janes, Susan Sheahan and Toni Scarr

#### Workshop questions:

1. How are you involved in river restoration, is it practical or scientific?
2. For the restoration of other habitat types are you involved in
  - ecosystem service approaches/
  - spatial planning/
  - looking at the social benefits?if so, what reports, papers and resources exist – could you provide these?
3. Through the RESTORE partnership and previous event we have found the key issue to delivering river restoration include (but not limited). Is this your experience?
  - Putting science into practice
  - Taking a project from the planning stage to delivery
  - Convincing projects to undertake valid monitoring, and ensuring that these results influence future works.
  - Assessment having scientific rigour, in order to monitor the effects of the river restoration

# Restoring Europe's Rivers

- Persuading certain sectors such as engineers to design and implement schemes that restore the natural river processes.
4. What other river restoration networks/ ecological restoration networks or contacts should we know about?

9:35 – 9:50 – feedback from the working groups

9:50 – 10:00 – Martin Janes – gave a short talk on networks around Europe

10:00 – 10:15 – Toni Scarr – introduced and provided an interactive session on our RESTORE website and River Wiki

**Working group discussion**

## 1.3 River Restoration field trip

**Photos of the Borova Stream river restoration.**

This restoration was carried out in two phases. The stream had been straightened, reduced in length and reinforced with concrete blocks. The restoration increased the length of the river by 6.3 km.

# Restoring Europe's Rivers

Photo of the group visiting river restoration sites.

## 2.0 Key Issues and outcomes from Event

Feedback from the workshop:

- New knowledge gained from RESTORE workshop included global examples of river restoration, our website and about the RESTORE project itself.
- They all planned to circulate information from the project and over half planned to upload their own case studies on to the RiverWiki.
- We were also referred to a number of new case studies, publications and networks
- They were all happy to be added onto our contacts directory.

## 3.0 Dissemination of Event Outcomes

We will add the Czech examples of river restoration to our RiverWiki. These will be the first examples from this country.

We will work with our new contacts in the Czech republic to provide them with river restoration information that they have requested.

# Restoring Europe's Rivers

We will add attendees to our contacts directory

Attendees to the wider conference received this communication from RESTORE:

## RESTORE

If you need to find out what is happening in the world of ecological restoration in Europe we would love to hear from you. RESTORE is a partnership of European organisations encouraging the restoration of European rivers towards a natural state.

[restore@environment-agency.gov](mailto:restore@environment-agency.gov)

We are an EU life+ project and would like to hear from you if:

- you need contacts of [river restoration networks](#) around Europe
- we have reviewed the [policies and obstacles](#) to delivering river restoration.
- We have collated publications, events and information relevant to restoring river. In particular see the river restoration and [biodiversity pages](#)

## RESTORE RiverWiki

Need to find river restoration schemes in Europe?

RESTORE has developed a [River Wiki](#) to share information on river restoration projects and it is now live. This is an interactive online source of information on river restoration schemes from around Europe. For example, you can search the database to all the case studies in Finland; case studies that have had monitoring on them or look at which organisations are involved in these projects.

### Adding your own projects

Please also add your own river restoration scheme to the database. Please note that you can add projects from anywhere in a river catchment.

Join the Restore Europe's Rivers group on [LinkedIn](#)

Watch RESTORE Europe's Rivers [presentations on Slide Share](#)

## Annex A FEEDBACK form

### Feedback Form: RESTORE Workshop – River Restoration

14<sup>th</sup> September 2012

Name

Organisation

Job Title

---

How will the workshop change your river restoration working practices?

From attending the workshop have you gained new river restoration contacts?

Y/N

If Yes, How many?

How do you think you will find these contacts useful in the future?

What new knowledge have you gained from attending the workshop?

Are you willing to help disseminate information gained at the workshop

Y/N

If so how would you do it and to what type of organisation?

Do you think that some of the outcomes from this event should be included in policy?

Y/N

If so which ones?

Are there any themes or topics you would like to see presented at future workshops?

Are you interested in being involved with future RESTORE activities/events?

Y/N

---

---

Any further comments?

## Annex B Attendees to the 5<sup>th</sup> European Conference on Ecological Restoration

### LIST OF PARTICIPANTS

- Dr. Aamlid Trygve S. Norway trygve.aamlid@bioforsk.no
- Dr. Aavik Tsipe Estonia tsipe.aavik@ut.ee
- M.Sc. Abdou Hanaa Netherlands hkandal@yahoo.com
- Mr. Adamek Martin Czech Republic martynek@seznam.cz
- Ms. Aggenbach Camiel Netherlands camiel.aggenbach@kwrwater.nl
- Prof.Dr. Akbarzadeh Mehrdad Iran mehrdad.ak@gmail.com
- Ms. Albert Agnes Hungary belyeg@gmail.com
- Dr. Alday Josu Gonzalez United Kingdom josucham@gmail.com
- Mr. Alignan Jean-Francois France jeanfrancois.alignan@gmail.com
- Ms. Altermann Anu Estonia anu.altermann@kik.ee
- M.Sc. Alvarado Swanni T. France swanni\_ta@yahoo.es
- Prof. Aradottir Asa L. Iceland asa@lbhi.is
- M.Sc. Araujo Rodrigo Brazil rudrigootavio@yahoo.com
- Dr. Aronson James France james.aronson@cefe.cnrs.fr
- Dr. Audet Patrick Australia p.audet@uq.edu.au
- Dr. Auestad Inger Norway inger.auestad@hisf.no
- Dr. Balaguer Luis Spain balaguer@bio.ucm.es
- Mr. Barov Boris Belgium boris.barov@birdlife.org
